

Colors in The Great Gatsby

So many colors were mentioned just in Chapter One of The Great Gatsby!! Choose three colors from your color symbolism notes and reference the line where they are found in chapter one. It might be helpful to use the online novel on my website for this assignment! (copy and paste is way better than handwriting the line(s).)

Your answers should look like the following example:

1. I bought a dozen volumes on banking and credit and investment securities and they stood on my shelf in red and gold like new money from the mint, promising to unfold the shining secrets that only Midas and Morgan and Maecenas knew.

(Guess which line you now cannot use?? Sorry!)

This assignment is due on Thursday, November 9, 2023. You may submit it on Google Classroom if you choose.
